MAY 2010 EDITION

JUNE CLUB MEETING SUNDAY THE 13TH 2:00 P.M. AT THE FIELD

From the Editor....

This newsletter will barely reach you prior to the Heli fun fly. The chopper guys are a smaller but very interesting component of our club. So those of you who are not afflicted with the lust to fly a rotor wing come on out and watch and enjoy.

This is a short newsletter primarily to get that information out and to remind all of you giant scale enthusiasts concerning the upcoming IMAA rally at Bomber Field next weekend. I have attached the flyer once again for additional information.

My thanks to Chris Laughery for his coverage of the May meeting and excellent photography. Chris also highlighted several links to the SCRC web site where you can catch up on the pattern event and other matters of interest. I hope all of you have a great Memorial Day weekend. Pause and consider and give thanks for those brave men and women who sacrificed to make this nation a world power. 'Til next time.....*Your Editor*

MAY 2010 SCRC CLUB MEETING....

We had a fair turnout for May's meeting. The winds were calm and the temperature was mild.

I've attached some photos from May's meeting:

- John Georgen gets May Model of the Month with his Top Flite P-47 ARF. The aircraft is powered by an O.S. 110 four-stroke. John won the aircraft in a raffle at the 2009 Bomber Field Warbird event.
- A very big "Thank You!" goes out to Mark and Cole Kramer for the wonderful job they

- did creating a new bulletin board for the field. Excellent craftsmanship, very nice indeed.
- Harrison Gray has rejoined the club after a brief hiatus from RC modeling. Welcome back Harrison. Also, Harrison had a successful maiden of his new Great Planes Escapade this month. The aircraft is powered by a Saito .82 turning a 13 X 8 prop. The aircraft has JR radio gear (photo attached). Congratulations on a successful first flight! Video of Harrison's maiden here:
<http://www.youtube.com/watch?v=gP5YjuRfat4>
- I flew my recently rebuilt Stinson several times on meeting day and Desiree shot some great video (photo attached). The video has been posted to the [SpaceCityRC.com](http://www.spacecityrc.com) web site here:
<http://www.spacecityrc.com/Video.htm>. As a reminder to our members, please submit photos and videos so I can add content to the site.
- John Blackmon returned to flying status after 9 months of recovery from a hand injury suffered in a prop accident. Welcome back to flying John! Video of John's return to flight here:
<http://www.youtube.com/watch?v=l2NlvWX26SY>

A number of photos from the pattern meet are posted here:
<http://www.spacecityrc.com/EventGallery2.htm>.

Also a reminder about the classifieds page. If members have any RC gear to sell, I will post the ad on the site. I recently posted a new O.S 120 Gemini Twin II for Adam Mendoca here:
<http://www.spacecityrc.com/classifieds.htm>

Check out the event calendar here:
<http://www.spacecityrc.com/Events.htm>

MARK & COLE KRAMER WITH THE NEW BOARD

HARRISON & HIS ESCAPEDE

SCRC UPCOMING EVENTS

Heli Fun Fly May 28-29

Sunday June 13th Club Meeting 2:00 p.m.

Sunday, July 11th Club Meeting 2:00 p.m.

Saturday, July 24th Annual Warbird 8:00 a.m.

Sunday, August 8th Club Meeting 2:00 p.m.

ADVICE.....

Coming toward you, rightside up or upside down, the low wing gets the stick. That's **THE LAW** and it never changes, **EVER**.

Hovering is for pilots who love to fly but have no place to go.

Everyone already knows the definition of a 'good' landing is one from which you can walk away. But very few know the definition of a 'great' landing. It's one after which you can **USE** the airplane another time.

There are three simple rules for making a smooth landing. Unfortunately, no one knows what they are.....

A fool and his money are soon flying more airplane than he can handle.

Try to keep the number of your landings equal to the number of your takeoffs.

RALLY Of The GIANTS

Presented by the:

International Miniature Aircraft Association

Hosted by: Bomber Field in Monaville, Texas; www.bomberfieldusa.com

June 4TH, 5TH, and 6TH, 2010
